TONE PROBE (200EP-G) (CLAM)

Tone Probe, Standard, with Headset Jack & Flashlight

Cat No: 52047484

UPC No: 783310499879

## Description

- Used in conjunction with any tone generator, Tone Probe Amplifiers permit wire and cable identification without having to make direct metallic contact with the conductor
- All models feature a powerful speaker for noisy environments, recessed on/off button control and high gain for accurate wire identification in congested cable bundles and equipment rooms
- The 200B-G also includes adjustable volume control for precise identification
- The 200GX also includes a LED for visual signal strength indication and recessed telephone test set connectors
- The 200EP-G also includes a headset jack (audio shock protected) and a LED Flashlight for working safely behind furniture, inside racks or in dim lighting conditions

## Specifications

- Application : Used In Conjunction With Any Tone Generator, Tone Probe Amplifiers Permit Wire And Cable Identification Without Having To Make Direct Metallic Contact With The Conductor
